

SIP Trunk 2 Channels + 1 Number- Option A

Information About the Service

The service:

SIP Trunk 2 Channels + 1 Number - Option A is a telephone service. A single channel can make/receive one call. This service is used to connect your existing VOIP enabled PBX to a telephone network. This plan includes the SIP Trunk with 2 Channels + 1 Number

Bundling:

This service is not part of a bundle.

Mandatory components:

You require hardware or software with a SIP server installed to use this service. You will also need a working internet service which is not included.

Minimum term:

The service is available on a month-to-month option or a minimum term of 12 months.

Important Conditions:

If calls are allowed out, standard PSTN call charges apply for calls made from the service. Your plan does not include any calls from your landline.

Our call rates are subject to change. New rates are published in our new Critical Information Summaries, emailed to existing customers and posted in MYGB.

You have the option of adding additional incoming numbers to your service, 1 additional number costs \$1.65, 100 sequential numbers cost \$49.995

Calls made to numbers outside of Australia will incur additional charges.
